

# EVERYONE'S FANS OF F.A.N.S

(FOOD AND NUTRITION SERVICES)

“

I really recommend having your kids eat hot lunch / school lunch. I was overly worried in kindergarten and made him cold lunch for a few months before he asked one day if he could have hot. We switched and it's been awesome. No early morning lunch making, no lunchbox to clean out, less grocery shopping ... it's a huge win. My kid feels empowered to make his own choice about which kind of lunch he gets. And he eats more kinds of food now than I ever did as a kid.

-Diane Gere
